TECH NOTES: EDI & RDI

Problem: Can I use my Medeco® key system in the EDI and RDI?

Resolution: YES! The EDI and RDI work with the Schlage® B500 and B600 series deadbolts, and Medeco® makes compatatible cylinders for these deadbolts.

All attempts were made to make sure this information is correct and accurate. However, please confirm with your locksmith or Medeco® vendor before ordering any Medeco® cylinders. If our infomation is inaccurate, please be kind and let us know so we can make corrections.

Standard KIK/KIL Cylinders

Medeco® makes both a 5 pin and a 6 pin KIK/KIL cylinder that is compatible with the Schlage® B500 and B600 series deadbolts.

IN USE

IN USE

5 Pin Cylinder: Medeco® Part Number 20008S4
Technology Available: M4/M3, BiLevel, Biax/Orig

6 Pin Cylinder: Medeco® Part Number 20009S4
Technology Available: M4/M3, BiLevel, X4, Biax/Orig, KeyMark

What to Order

RDI (Restrooms) x Schlage® B560P or B660P x 1 each Medeco® Cylinder
EDI (Egress) x Schlage® B562P or B662P x 2 each Medeco® Cylinders

Small Format Interchanagable Core (SFIC)

In many cases the easiest way to use a Medeco® cylinder in a Schlage® B600 series deadbolt is to use a Medeco® SFIC Core.

Medeco offers their SFIC cores in their Medeco® B, Medeco® X4, and Medeco XT keyways.

IN USE

6 Pin Cylinder: Medeco® X4 Part Number: 33600006
